"SIN TAX"

A Crippling Blow to the Beer Industry: What's at Stake

The proposed House Bill 5727 seeks to unify and increase the excise tax rate for beer.

On the first year of implementation, all beer products will be levied an excise tax of P25.00 per liter.

For economy brands that would be tantamount to a 140% increase in excise tax.

In other words, it's consumers who can only afford the lower-priced beers that shall bear the burden of additional taxes.

Given that low-priced and economy brands make up 74% of all beer sold in the Philippines, we're looking at a steep drop in beer industry volumes.

Conservative figures have beer volumes declining by as much as **50%**—a staggering decline.

The change in the status quo will only result in lost jobs and income for those who need it most.

As many as 8,000 workers directly associated with the production and selling of beer, and tens of thousands more involved in the distribution of beer products stand to lose their jobs.

Lower beer sales will threaten the livelihood of more than 500,000 sari-sari stores nationwide.

HB 5727 will place beer products out of reach of our consumers who are mostly in the lower-income bracket.

It doesn't have to be this way.

We support a tax law which is multi-tiered and provides for moderate increases, protects the rights of low-income consumers and promotes the healthy growth of an industry which has always been a committed partner to economic development.

[illegible]

TO THE HONORABLE MEMBERS OF THE HOUSE OF REPRESENTATIVES

We, the members of the Distilled Spirits Association of the Philippines, together with all of our direct employees totaling over a hundred thousand, submit to your considered [illegible] on our industry.

But this we do with great apprehension because the current proposal under House Bill No. 3727, which is authored by Cavite Rep. Joseph Abaya and signed by some members of the ruling party as being endorsed by the President, will cause the death of our industry, not only ours of livelihoods, as well as of more than 5,000,000 of our countrymen who produce our raw materials and render allied services for our industry. The viability of a close to a million [illegible] that derive 20 percent of their income from our distilled spirits products, would also be affected.

While we understand that our economy needs additional revenues from taxes, these revenues should not be raised through a measure that goes against the interests of the state and its stakeholders, a measure that increases social and economic inequalities rather than reduces it, a measure that is regressive rather than progressive contrary to the constitutional mandate for Congress to evolve a progressive system of taxation.

HB No. 3727 intends to penalize us with more than 1,000% increase in tax on the third year with an excise tax of P150 per proof liter or more than 10 times the current P14.68/proof liter, while it considers high priced brands falling under Section 141(b) of the National Internal Revenue Code with a 1,500% percent increase in tax on the first year from P[illegible]/proof liter to P[illegible]/proof liter for those under the premium classification. By the third year, economy brands with an average net retail price of P[illegible]/750 ml bottle and high priced brands with average net retail prices of P[illegible]/750 ml bottle for standard, P[illegible]/750 ml bottle for de luxe and P[illegible]/750 ml bottle for premium classification will all pay the same tax of P150/proof liter.

Our industry generates sales of around P43 billion yearly and contributes about P8.5 billion in excise taxes per year. With the proposed bill, the Department of Finance's claims that it would be able to raise excise taxes of P213 billion over a period of five years. This is roughly the same amount of gross sales that the industry would generate for the same period. One has to ask the question how could the industry pay excise taxes equivalent to its total gross revenues?

DOF projects to collect from distilled spirits industry a cumulative total of P213.31 Billion in excise tax revenues for the next five years, more than cigarettes and fermented liquors and proposed as an exponential increase every year which is not realistic.

DOF Reform Proposal
Estimated Incremental Revenues (in P Billion)

Year	Cigarettes	Distilled Spirits	Fermented Liquors	Total
Year1	[illegible]	31.2	10.6	[illegible]
Year2	[illegible]	[illegible]	[illegible]	[illegible]
Year3	41.3	[illegible]	[illegible]	110.4
Year4	[illegible]	[illegible]	[illegible]	[illegible]
Year5	[illegible]	64.2	29.6	[illegible]
Total	196.4	213.3	121.5	531.2

With the industry's annual gross revenues of P43 B, it is impossible to collect P213 B in five years. That would be equal to the industry's cumulative 5-year sales revenues at current prices.

The distilled spirits industry is highly sensitive to inflation and depends on the very low purchasing power of Filipino consumers. Industry data below show that more than 90 percent of the total industry volume is being consumed by consumers belonging to the D and E socio-economic classes. In light of this data, we ask: **How could the typical Filipino consumer afford a tax of P150 per proof liter that would raise the price of a local distilled spirit almost three times from current prices from P64 pesos to P150 per 750 ml bottle, when his total expendable income for the product is only about P60 per week?** The proposed bill is oppressive and anti-poor. **The proposed bill seeks to raise the incremental revenues by taxing not the consumers who could afford the additional tax, but by taxing those who could not.**

Liquor Industry Data
Eco class D & E consume 91.2% of industry volume

[illegible]	[illegible]	[illegible]	[illegible]
AB	[illegible]	[illegible]	[illegible]
C	[illegible]	[illegible]	[illegible]
D	[illegible]	[illegible]	[illegible]
E [illegible]	[illegible]	[illegible]	[illegible]
E [illegible]	[illegible]	[illegible]	[illegible]
Total	[illegible]	[illegible]	[illegible]

91.2%

The fermented and distilled beverage tradition was well-established in our islands as part of culture well before the European contact. Before Spaniards set foot upon our soil. The earliest Spanish writers already spoke of established native beverages, whether simply fermented or distilled, such as tuba from sap of coconut or nipa palm, lambanog (distilled from coconut palm), tapuy (rice wine) and basi (sugar cane wine). Our more than five-century industry now faces an uncertain future. We are besieged by fear that with a single stroke of legislation, we will cease to exist as part of an age-old business culture taxed out of existence.

Indeed, the power to tax is the prerogative of the legislature. We, however, adamantly pray to keep in mind that **legitimate enterprises enjoy the constitutional protection not to be taxed out of existence. Incurring losses because of a tax imposition may be an acceptable consequence but killing the business of an entity is another matter and should not be allowed. It is counter-productive and ultimately subversive of the nation's thrust towards a better economy which will ultimately benefit the majority of our people.**[1]

It is upon your hands now, honorable members of the House of Representatives, the duly elected delegates of the voices of our people. We beseech your collective wisdom on the matter at hand so we may become a responsible and cooperative society working together towards a beautiful and prosperous nation for our people.

Very respectfully, we submit to your prudence.

HOUSE BILL 5727 is ANTI-LOCAL INDUSTRY

Full-page ads have appeared in major newspapers attacking
the current four-tiered excise tax system under Republic Act 9334.

These ads call for the passage of HB 5727 prescribing a single rate
on all brands to "level the playing field."

Will adopting one rate for all cigarette brands level the playing field?

Consider this.

This will happen if HB 5727 is adopted.

- Tax rate on imported premium brands will increase by only **6%**
- Tax rate on low-priced local brands will increase by more than **1,000%**

A 1000% increase is excessive and unprecedented;
no other country in the world has increased taxes that much.

This will be the likely impact of HB 5727:

- Legal cigarettes will become unaffordable for many Filipinos.
- Cigarette consumption will however not be greatly reduced because consumers will switch to cheaper, non-regulated black-market cigarettes thus undermining the public health objective of the tax reform.
- The Government's revenue objective will be undermined by smuggled and fake cigarettes which do not pay taxes.
- Tobacco growers and small local manufacturers which produce only low- and mid-priced brands will be threatened in their existence.
- The livelihood of the **2.9 million** Filipinos who depend on the tobacco industry will be impacted.

We support the passage of a tax law which provides for the current multi-tiered structure as well as REGULAR AND MODERATE TAX INCREASES.

By Philippine Tobacco Institute:

Associated Anglo-American Corporation
Fortune Tobacco Corporation
JT International (Philippines) Inc.
La Suerte Cigar and Cigarette Manufacturing Inc.
Mighty Corporation
Philip Morris Philippines Manufacturing Inc.
PMFTC Inc.

WE APPEAL TO THE GOVERNMENT TO SUPPORT THE LOCAL TOBACCO INDUSTRY.

Success Made Easy

Why settle for just internet, when you can have a total business solution?

Taking your business online requires more than just an internet connection. It requires your own domain name, web hosting, email addresses plus the security to keep everything virus, spam and hacker-free. That's why for your business, get PLDT myDSL Biz. Because with just 1 subscription, you get an Online Office and Security Software Suite on top of the internet package with guaranteed speeds. It's everything you need to get your online business up and running for only P4,000 a month.

Get your premium business-grade broadband for as low as P4,000/month with speeds of up to 15 Mbps.

PLAN	SPEED	MIN SPEED	MONTHLY FEE	FREE SECURITY SOFTWARE SUITE	FREE ONLINE OFFICE SUITE
Small Biz Lite	10 Mbps	310 Kbps	P4,000	NONE	[illegible]
Small Biz Junior	11 Mbps	640 Kbps	P6,000	5 users	5 email addresses
Small Biz Senior	12 Mbps	768 Kbps	[illegible]	8 users	8 email addresses
Powerpack A	13 Mbps	1024 Kbps	[illegible]	10 users	10 email addresses
Powerpack B	14 Mbps	1152 Kbps	[illegible]	15 users	15 email addresses
Powerpack C	15 Mbps	1536 Kbps	P50,000	20 users	20 email addresses

All packages include WiFi Router Modem and Dynamic IP

Avail of these upgrades with your subscription:

ROBINSONS PLACE Pangasinan

opens today in Calasiao!

Robinsons Land Corporation (RLC) creates another landmark with the opening of its 30th full service commercial mall in Calasiao, Pangasinan. Only 15 minutes from Dagupan and San Carlos cities, the 2-storey mall is built on a 6-hectare lot and sprawls across 32,000 square feet.

RLC President Frederick Go says that the 25 thousand square meter leasable space is over 90 percent occupied with Robinsons Department Store, Robinsons Supermarket, Handyman, Robinsons Appliances and Robinsons Movieworld as anchor tenants. Robinsons Movieworld operates 3 cinemas and a 3D cinema with a total seating capacity of over 1,000 seats. The 3D cinema is the first in the region and uses the XPAND system.

Aside from Robinsons Place Pangasinan, RLC malls in Central and Northern Luzon include two malls in Pampanga, and one each in Tarlac, Ilocos Norte, Bulacan and Cabanatuan.
